

Doffer & feed roller drive conversion from DC to AC with inverter for DK780/DK800 cards (Part no: 969390740003)

Existing panel

Panel after conversion

Doffer DC motor (old)

Doffer AC motor (new)

Feed roller DC motor (old)

Feed roller AC motor (new)

Advantages:

- Optimised carding performance by new Truetzschler technology
- Maintenance-free and durable AC motors, ensures precise auto levelling
- No need to clean and replace carbon brush frequently
- No overload to feed roller and doffer motors
- FU technology from Truetzschler – latest generation drives as in TC Cards
