

EGUN (Pneumatic Hand-tufting Gun) is a flexible pneumatic tufting gun based on **guillotine cutting principle** which is very efficient for a wide range of yarns including Wool, Viscose, Polyester, Fancy yarns, Nylon, Linen, Polypropylene, Cotton or their blends.

EGUN is a heavy duty and long life tufting gun which is very easy for maintenance. Thanks to guillotine cutting principle, it has a cheap and long life blade which you can sharp it several times easily. Meanwhile you can change it from cut to loop and vice versa very easily in a few seconds.

EGUN is coming in three models:

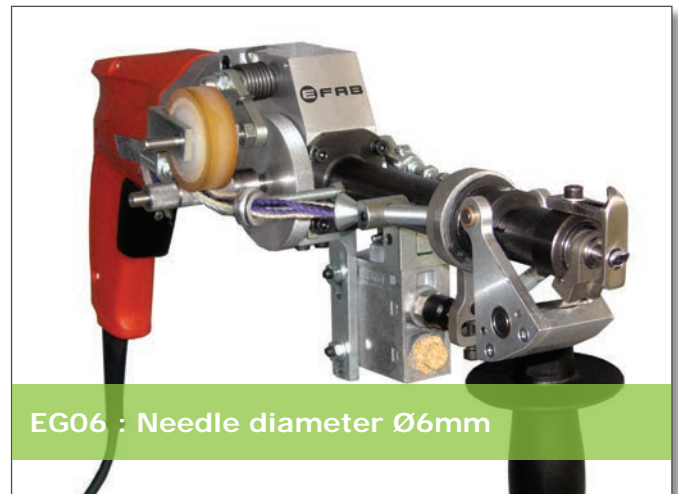

- . EG06 with Ø6mm needle
- . EG06s with Ø6mm needle for short pile heights
- . EG11 with Ø8mm or Ø11mm for tick or felted yarns

EG06

- . Needle diameter: Ø6mm
- . Cut pile height: 16–33mm (U-tuft or J-tuft) or 13–17mm in EG06s
- . Loop pile height: 12–50mm or 8–13mm in EG06s
- . Speed: 2000 stitches per minute
- . Weight: 3.5Kg
- . Air pressure: 7~8bar, 200 lit/min
- . Power consumption: 500 Watt
- . Easy cut-loop changeover

EG11

- . Needle diameter: Ø8mm or Ø11mm
- . Cut pile height: 33–75mm (U-tuft or J-tuft)
- . Loop pile height 25–50mm
- . Speed: 1500 stitches per minute
- . Weight: 6Kg
- . Power consumption: 500 Watt
- . Air pressure: 7~8bar, 300 lit/min
- . Easy cut-loop changeover

EG06 : Needle diameter Ø6mm

EG11 : Needle diameter Ø8-11mm
