Osthoff-Senge was founded in 1912 at Wuppertal and is still family- owned. The medium sized company specialises in the construction of singeing machines.

With more than 3000 units in operation, Osthoff-Senge is the market leader in the knit and woven field.

Progressive thinking, continuing development, comprehensive know-how and decades of experience are the cornerstones of success.

Osthoff became a by-word for singeing.

Osthoff - tubular knit singeing machines

Singeing
a
value addition
to your
knitted garments

- No piling on surface
- Clear-cut visibility of knit structure
- Improved appearance of garments
- Attracts no soil
