

# DARWIN MACHINE

BETTER DYEING IN EVERY WAY

SAVE THE GREEN

*"Water is life's mother and matrix, don't waste"*

PMT RIBBONS DESIGNS FOR YOU  
A **NO WASHING** DYEING MACHINE

TEXTILE MACHINERY

**DARWIN Machine,**  
is a complete low consumption continuous pad dyeing system for narrow fabrics.

#### DARWIN INCLUDES:

- Feed-in for one or multiple tapes
- Three roller dye padder
- Infra-red
- Hot air dryer
- Control panel
- Automatic Dye kitchen

The machine is designed by PMT Ribbons to take advantage from PERACTO F dyes, an innovative special analog dyes by Farbenpunkt.

PERACTO F dyes is available from light to dark colors with excellent fastness and washable.

**DARWIN:** the right machine for your purpose

- **Low floor space & Low capital investment:**  
The machine is compact and installation is very simple.  
Because of no need in steaming and washing, the capital investment is lower **than** a traditional dyeing machine.
- **Low energy & No washing tanks:**  
Darwin is using lower energy and no water, you don't need to wash the tapes after dyeing!

#### • Automatic Color Kitchen:

A dyeing software and a full automatic dosing system get easier to make the recipes and the data saving allows the color repeatability.

#### • Customer-oriented:

The machine presents an individual, innovative and user-oriented solution. It is suitable for the production of small up to medium wide narrow fabrics; for small lots or large quantities.

The machine is available also in the heavy duty version to dye heavy tapes and belts.
